

Langdon College is committed to offering students an inclusive, multifaceted and extended curriculum.

Specialist Therapy Sessions

At Langdon College, Speech and Language Therapists (SLTs) and Occupational Therapists (OT) work with students to develop highly individualised and person-centred communication targets and therapy programmes, which connect to functional and meaningful aspects of the young person's life.

We work jointly with teaching staff, other therapists and parents to ensure targets are embedded across the college day, on placements and at home, where possible, to support generalisation and functionality of skills.

News

Following Government guidelines Langdon College are helping to keep learners and their families safe by offering lateral flow testing twice a week. Lateral flow testing is currently being offered to people who do not have symptoms, in a range of different settings. Lateral flow device (LFD) testing is a fast and simple way to test people who do not have symptoms of COVID-19, but who may still be spreading the virus. The tests are easy to use and give results in 30 minutes.

Independent Living

Independent Living Skills are at the core of our curriculum. Last week the learners learnt how to make hamantaschen for the colleges Purim celebrations. The learners used the milchik training kitchen to prepare the ingredients, then make and bake the hamantaschen.

Jewish Culture

Earlier in February we celebrated Tu B'Shevat.

Rabbi Lister from London engaged the learners from both campuses with an interactive Zoom session. The learners listened and shared their knowledge. Throughout the week in different sessions learners created artwork and made a fruit salad.

Employability

Learners are currently learning how to find and apply for suitable job roles. To help us with this JEWEL kindly offered the employability learners a group careers Zoom call. The learners received individual advice from Isaac which has helped them focus on their next steps.

Next Month: Langdon in Bloom, Pesach, Teacch programme

If you wish to find out more information about our 16-24 year old specialist learning programme look online at www.langdoncollege.org or contact:
